Dear Reverend Peoples n shall

Isay Robert: Your letter was very
welcome + your account of the Polk
money + estates most interesting.

Thank you for the Polk Geneal-
ogy + for adding the Logan name.

As to the picture of Postall Hall.
I find it is from your Autobiog-
raphy of Edmund Polk
opposite the title page. I had
a photostat of that + of the
genealogy page taken at the

New York Public Library & I share the
negatives. I can loan copies
come for you or lend you the
negatives at any time. Let me know.
If I wanted a copy of the auto-
biography, should I apply to a
dealer in old books in England
or Scotland? There is a book on
the Sogans I have been trying
for years to find without success,
so I am not hopeful.

I misinformed you about Bohemian-
Grimké - The family called
themselves Bohem - Bohem Grimké

3.
& use it every time they can.

The late Mrs Pringle,
Emma Sachlaken, whose mother was
a Baker & who bought Archdale Hall
from the last Richard Baker,
wrote a sort of diary of her life
or knowledge of Archdale Hall.
Her son says it is too personal
to print, but he let me read it
& allowed me to make a copy.
If you would like to read it,
& perhaps copy it, let me
know & I'll send it at once.

The Seniors of Mapa Costa are the
signers, are they not?

I am most interested in finding
out that William Webb was near-
sighted a second time. Your geneal-
ogy most interesting. My hus-
band's family are very friendly
with Dr Allen Miles & am I am I am
why. My submarine husband &
wife & two children arrive on
Sunday for 3 or 4 days to say good-
bye - they are en route Honolulu!
So I will go into the bells later. ^{Just on the}
Loring, Dagle
