October 6, 1966.

Dear Robert,

I enclose thermofax copies of what I have on Colonel John Heyward Glover and his descendants. My information on this branch of the family was assembled through the courtesy of:

Mrs. Norman L. George,
1011 Country Club Road,
Wilmington, N.C.

I am sending you under separate cover a complimentary copy of "Glover Cousins" in the thought that you might like to have it at hand for reference, from time to time.

In the event that your correspondent might like a copy, there are still a few on hand.

If she would bring me up to date on her branch of the family, I should love to incorp-

orate it into my charts. As you will note, page 68 is conspicuous by its wide open spaces. And I even have Margaret Glover's husband as Alfred H. Jenkins, whereas, from your letter, it would seem that he was Adam Hubley Jenkins.

Richard.
