Dear Mr. Peeples:

I am enclosing a copy of the Descendents of Basil Manly Jenkins, who was the
3rd ~~fifth~~ child of Martha Ann Jaudon and Benjamin William Jenkins.

Please use my information as you think best. You may delete any parts that you wish. My husband and sister are the only other persons who have seen these pages before mailing them to you. I have included births, deaths, marriages, children, divorces, military services and some occupations. I had collected education (colleges), too, but decided against using this because the information on all was not available. I did have a large part of the education, however, if we ever need to use this category. The occupations really bothered me most of all. I finally decided to include only those available in the two older generations - my generation and that of my parents. This was my first effort at collecting a big amount of family data and it was difficult - could not go to the public library for such recent information.

Many of our family are interested in copies of your publication and I am wondering if they will be available. Your complete book on the Jaudon Family will take much longer, I am sure, and I hope you will let us know when we can place an order.

We are indebted to you for instigating this research and I shall continue to work with it until the missing links are found. Many thanks for your continued interest in our ancestors. Frank joins me in sending regards to both you and Mrs. Peeples.

Sincerely,

Janie Beth Carter Kirkland
