Dear Reverend Peeples:

When I wrote to you last February from aboard our boat I said that I would see if I had any additional information regarding the Miles family. Unfortunately I have not been able to find anything worthwhile.

We are now preparing a family record or you might say some sort of geneology on the Chisolm Tribe. This work has not as yet been finished but we are well along the way. The purpose of this is to pass it on to our children as they really have very little knowledge of either side of the family. The thought occurred to me that it would be nice if we could tie in the information on the Miles family.

In your letter of last March you asked me if I had or could furnish various dates etc. pertaining to certain members of the Miles group. I do not have any of these nor do I have the chart prepared by Langdon Cheves you referred to. I am sorry that I could not have been of some help.

I wonder if you have ever finished the work you were doing on the Miles family and if so is it available in either book or pamphlet form? If it has been published or printed I would like very much to purchase a copy, if not is there anyway I would borrow this information from you. Any suggestions you have on the subject will be greatly appreciated.

We are now here at home for awhile, having been away all summer, cruising in northern waters, Cape Cod etc. Our present plans are to head south on our boat from Charleston sometime around the middle of January and if possible I am certainly going to try and stop at Hilton Head on our way. It would be a great pleasure for Loti and me to meet you and Mrs. Peeples. In any event I will keep in touch with you and let you know when we are ready to actually get-under-way.

With kindest regards.

Sincerely
