P R E F A C E

It is with regret that I must announce that this is the last issue of this family periodical "Moore Family Register". Due to my involvement in family genealogy, local history and patriotic organizations, I will be unable to continue this task.

To the ones of you who have been faithful subscribers, I give my thanks to you for your cooperation. Many of you have written to me, asking that I continue, and I thank you for the wonderful compliments you gave to me. But I simply cannot.

But I do agree with you that this periodical has been well worth the time, effort and money. I promised you 62 pages per issue, and you got lots more. I promised you data from all the states, and in these three issues I covered 25 of them.

I feel that I have experienced another phase of life by having published this periodical. It has been rewarding in the new friends I have made, and the possible researchers whose MOORE lines might connect with mine. I know from your letters that many of you have found common ancestors among yourself.

To the ones of you who never saw your narrative query in print, it is because you never sent your payment for it. The rule was you purchase the issue in which your query is run.

I have some back issues, and they will continue to be for sale as long as the supply lasts. The cost is the same --- \$6.00 per issue, or all three of them for \$18.00.

I leave you with this quote: "We must never allow what we lack to tarnish our appreciation of what we have." Let that be true of us in our quest for our ancestors. But I do hope all of you find the MOORE ancestor you are looking for.

EXCERPT OF LETTER FROM LAURA MOORE GAVIN

This letter was written from Kenansville, N.C. July 21, 1927 to Mr. Grady., from Laura Moore Gavin. It deals with Moore, Sloan, Dickson & related families. It was sent by Harry Nehms (#3000) for publication, and he states he got it from Lennox Baber, 3106 Cornwall Rd., Durham. N.C. I am only printing the "MOORE" data.

"None of the Moores in this county are related to me as Moores, but my grandmother Dorothy Ann Maxwell (she married David Middleton first time, and he killed himself drinking at the age of 26) married one Harry (Henry) Moore, and her sister Cassandra Sloan married Daniel C. Moore, the two Moores, no relation as far as we know. My grandfather came from Wake Co. to Duplin, and his father from Mecklenburg Co., Va. while Daniel C. Moore's people came down from Maryland. However, I think they all came first to Chester, PENNSYLVANIA, and they were probably related, after all.

"Long years ago there was a little book published called "The Captives of Abb's Valley," and it is a little sketch of Moores who came first to Chester, Pa., and on down through Shenandoah Valley. The Presbyterian Committee of Publication put out a new edition of this little book several years ago. I wonder if you were told as a small boy when you studied geography that Virginia was shaped like a camel lying down, or rather kneeling down on all-fours? Well, Abb's Valley is in the neck of the camel, and it was there that this Moore family lived, some were killed, some were captured by Indians and taken to Canada; but they escaped and found their way back to Virginia, and their descendants by the score are still there. One James Moore was at the battle of Guilford Court House and his horse dashed into the British as he mounted to get out of the way (the horse had been hitched to a swinging limb and broke the limb, just as Moore mounted) but by a daring feat he made good his escape with bullets flying round him. As my grandfather came from Boydton, Va., I have fancied that he came from this Moore family. I do not even know my great grandmother Moore's name, but rather think it was Mary....."

"Robert Dickson II, son of James Dickson married Mary Catherine Sloan, Levi Moore (B 1844-pencil) married Margaret Sloan, George J. McMillan married Elizabeth J. Sloan and ---Teachey McMillan -- Martha, I think - Sloan. I do not recall her name now, and there was a spinster sister, named Amanda, if memory serves me aright. The last two, I remember seeing when I first grew up, and I suppose I saw Cousin Margaret Sloan Moore, but am not right sure now, as she died when I was not more than eight or ten. Levi Moore's son Dan lived right near your father at Baltic. He is 75 years old, and he has been an invalid for years....."

1907. I am searching for the parents of Effa Ella Moore. She was born ca 1765 in Virginia or the Carolinas. Her parents were supposed to have been William and Anna Moore. Her father was also known as "Sterling" Moore. He was born in Scotland and served in the Revolutionary War for six years. It is very difficult for me to find anything else about Effa Ella, as I believe she was disinherited. She never married but on July 8, 1800, she gave birth to a son, Allen Moore in Montgomery Co. N.C. She and her son moved into western Virginia and lived for a while where she taught school to support him. They later left Lee Co. VA and came into the mountains of Eastern Kentucky ca 1816. They settled in an area of Clay County which later became Breathitt County. All of the above information came from an old diary and was told by my great-grandfather, James Lewis Moore who was the youngest son of Allen Moore.

(Instructions: Example on next page)

First, head up the six columns. The first one is for the marriage date. The second column is for the year of the first federal census taken after the marriage. The other four columns follow in sequence for each ten years.

Next, if you have a Family Bible, listing all the children and their births, enter it in column one. If not, hold up on this column until you have your census worked out in the other columns, then return to column one and fill in the names that you can identify. The small space to the left is for the sex of each child.

Next, list the family members of the household as they are found in the first census after marriage. If this census was 1840 or earlier, figure out their approximate birthyear as this is very important in helping to correctly identify each person in the household. Remember they had lots of children that died young.

When the second census after marriage is recorded in column three, be sure that the age group and sex correspond to those of the year before. Continue working the other columns in the same way.

The sheets I have for sale have room for fourteen children, instead of nine as shown in this example. (Incidentally, this is NOT my family line) THE COLUMNS VERTICALLY ARE FOR THE CENSUS --- THE COLUMNS HORIZONTALLY ARE FOR EACH CHILD.

On the backside of the family household census you can list:

1. The sixth census if the husband and/or wife lived that long.
2. Other people who were listed as living in the household.
3. The family members, if any, listed in the mortality schedules.
4. The slave schedule, if there was one, for this household.

Purchase these blank pages directly from me - Ophelia Wade, Route 1 Box 66, Bragg City, Missouri 63827. I am the person who originally perfected this sheet, and others on the market were copied from me. The cost is 70 sheets for \$5.00, printed on 60# offset heavy-duty paper, with room for 14 children per household.

The Howard Moore family which I have worked out on the next sheet is an example of how they are filled out. The script is the information that I found and compiled on the page.

The Howard Moore household:
 1820 - engaged in agriculture - the only Howard Moore family in Va. - no Howard Moore in 1820 existing Tenn. census record.
 1830 - only Howard Moore family in Missouri. No slaves.
 1840 - only Howard Moore family in Missouri.
 1860 - living with them was Sophronia Goodman, 25, Tennessee

History of Southeast Missouri, by Goodspeed in 1888 and by Douglas in 1911, gives accounts of this family. They moved to Dunklin Co. Mo. in 1829, and settled at Kennett. Their son David was the second white child born in the county.

BOOK REVIEW

"Abstract of Moore Records of South Carolina 1694-1865 by Janie Revill, published by The State Company, Columbia, S.C. copyrighted 1931 by Janie Revill. This 46 page book is full of the existing MOORE records she could find (prior 1865) from Abbeville, Anderson, Barnwell, Charleston, Chester, Darlington, Greenville, Kershaw, Lancaster, Laurens, Marlborough, Newberry, Richland, Spartanburg, Sumter, Union, Williamsburg and York counties. I do not know the price, nor where it can be obtained. I would rather imagine access to it will be limited to the larger genealogical libraries.
