Dear Cousin Robert and Cora:

You may not believe that I really enjoyed your newsy letter and have been trying to find time to sit down and write a long one in reply. I do want you to have the inventory of Peter Robert's Estate and the copy of information that tells us where

When I read that Joseph was the executor of the estate I re-read the information about him and read on page 92 of TPRF that the graveyard containing three-fourths of an acre is excepted in the above grant. and that it must have joined the property beside the Bayou Sarah Meeting House. I can't wait to get to Mississippi this Fall and look for the graves. I know that Peter and his oldest son James were buried there, but also Ann Grimball Robert must have died before the ~~will~~ est. was probated. There was no mention of her in the settlement of the estate. I do believe that Ann must be there also or they would have mentioned her.

We learned that Peter's son Peter had the family bible and we know who received the trunks.

We did not get to the French Santee settlement, but saw it on television. It did sound confusing I know. They had a program on the flora and fauna of the area.

Enclosed is a picture of you both and you look wonderful. I am so glad to have one for my files. I also enclose an article by a young man who called one day and asked about the Huguenots. I was ill but did let him come. He forgot to mention the Reverend Pierre Robert. He got so interested in my Patriot that he got confused. You can see from the picture that I was not feeling well. I have had so many telephone calls and letters that I will stay busy for a long time assisting with memberships.

When you have finished with the material I have sent you may share it with Cousin Tom.

Thank you for the names you have sent and will try to get in touch. I know Kenneth will enjoy your relative and look forward to meeting him myself.

We are anxiously awaiting the publication of the Proceedings of the S.C. Magazine.

We are having very nice weather at this time and I have been playing tennis so feel wonderful. Love to you both. Kenneth joins in sending regards.

Fondly,
