June 28, 1978

Dear Dr. Beadles,

It was with great interest that I read your recent letter to my brother. I appreciated his sharing it with us, because he had told me and my husband about their trip. The service in the Huguenot Church in Charleston and their visit to Medway were the highlights of that vacation. I hope someday to have the privilege of tracing those footsteps.

I was also glad to hear of the Savannah Bellied Families Assn. and of their reunions. It was kind of you to extend an invitation to the descendants of W. H. Robert, and possibly we may attend it; our son and his family live in Atlanta. I am an active member of the National Society of Colonial Dames - my husband and his brother are members of S. A. R. and eligible for the Huguenot Society.

It might interest you to know that my husband's sister-in-law

had published two books pertaining to the Beadles family. You can see we take pride in our heritage and have instilled it in our children. For that reason, I would like two copies of Our Family Circle to add to the one I already own. Should it be updated, I would also be pleased to supply data for the inclusion of my husband and children.

Please find my check for \$53 to cover the cost of the book, the postage and insurance.

Again thank you for your interest in your long distance cousins. Hopefully, we will meet in the near future. Meanwhile, my husband joins me in sending good wishes always -

Katherine Robert Beadles
