## *EDITOR'S PAGE*

The presentation in this issue written by Linda Frederiksen illustrates very well some of the techniques used in successful family history research. It shows the need to look at records that have been filed away, as sometimes new knowledge will bring to light something that was previously unclear in a record. It also shows the need to study all families with the same surname in the area where your ancestor lived, and to look at all the records concerning the surname. The use of census records was an important tool in determining family relationships and possible family relationships. This article also brings out the fact that while family traditions should be looked into, they should be treated as no more than clues to the real story. There are more family traditions that have lost some of the facts or have been inadvertently twisted, than there are those that are handed down intact. (It is like the old game of "Telephone" that many of us played as children.)

"I couldn't believe I was spending time and money to obtain information on a family I knew was not my own—this is true genealogy addition!" is a comment that hit home with the editor. She has found herself in this position many times, as has Norman R. Peters and other contributors to *Lynn/Linn Lineage Quarterly*. This "addiction" has led to some fine articles that have been most helpful to other researchers.

## QUERIES

**Elizabeth Linn** married **Gamaliel Tuthill, Jr.** about 1790, Newton, New York. (Gamaliel's surname is sometimes found as Tuttle.) The Gamaliel Tuthills were in the Luzerne Co. PA census in 1800 having 2 small daughters. It is thought that Elizabeth Linn's father was **Samuel Linn**.

I will give a \$50 reward to anyone giving me the proof of marriage for Elizabeth Linn (Lynn) to Gamaliel Tuthill, Jr. Gamaliel was b.1776. The Sr. and Jr. lived in Harwick, NJ, and are thought to have been born in Goshen Orange Co. NY. *Jane Tuthill Potter, 501 B Street – Apt 202, Marysville, CA 95901-55565; Phone (530)743-1327; E-mail: janetut@actaeon.net*

I am trying to find info about a story in *The Gadsden Times* in northern Alabama regarding an **Andrew Lynn**. The article is date 11 July 1872 and says: "An affray – **Andrew Linn** and **James Works** had a difficulty near Cox's in Big Wills Valley on the 4<sup>th</sup> and Linn shot Works with an old time horseman pistol, the lead taking effect in the hip." In the 18 July 1872 issue of the same paper is this item: "**James Works** shot by **Andrew Linn** on the 4<sup>th</sup> has since died." Does anyone know what happened to **Andrew Linn** or why he and **James Works** were fighting? *Saran, e-mail: Adcock@locinet.com*

The extracted information has come from National Archives Microfilm M-653. The roll numbers are indicated after the county name. Do not assume all counties start with 1 as the page number. Some times the page number is one that has been written in the corner at a later time, rather than the one that is in the "blank" for page numbers. Although care was given to making this compilation as accurate as possible, the original record should always be consulted to verify the data.

Information in the 1st column is the page number,\* dwelling/and family number, town or township name. 2nd column is the name of person being enumerated, 3<sup>rd</sup> column is age, 4<sup>th</sup> column is sex; 5<sup>th</sup> column is occupation; 6<sup>th</sup> column is value of real estate; 7<sup>th</sup> column is value of personal property; 8<sup>th</sup> column is birthplace. The original records should always be consulted as errors in transcription are always possible and additional information may be found in the record. Current state abbreviations have been used.

This may be the original page number or one that was written in with heavy ink at a later time. If it is a large number, for instance "345" it is most likely one that has been written in at a later time. Various indexers used both type of page numbers, resulting in indices having both systems of page numbers. This presents just one more challenge to researchers, in trying to find their ancestors.

Abbreviations: NTL = no township listed. miy = married within the year. m = months. T15S R5E = Township 15 South Range 5 East. Twp = Township. PO = Post Office. M = male. F = Female. w/ = living with.

## Searching for Lynns in Arkansas

by Linda Frederiksen\*

*Editor's note: this is a good example of learning research idiosyncrasies that can be applied to the research of your own family.*

In researching my family tree, I have made connections for my own family, but coincidentally I have made connections for other Linn/Lynns families as well. Such was the case in discovering some of the descendants for a John A. Linn/Lynn.

Family hand-me-down stories were that my great-great-grandfather, Duval Vassaur, was a Frenchman who owned a riverboat. He had a friend named George Snider, who worked for him on his boat. My great-great-grandmother, Louisa Jane Linn/Lynn, an orphan, was the niece of George Snider's wife, Sarah, and was being raised by them. Duval fell in love with Louisa and in 1848 they were married at Arkansas Post in Desha Co., Arkansas. Sarah Snider was said to have been the sister of Louisa's mother and that the family lived somewhere near Russelville, Arkansas.

Russelville is the county seat of Pope County, so with the family story in mind, I began my search there. No Linn/Lynns were listed in the Pope County census records before 1850. Listed in the 1850 census was, John W. Linn, age 53, miller, b. Tn., wife Bidy 55 b. Tn., and children, Marion 16 b. Tn., Robert 14 b. Ky., and a George Roper age 22 b. Tn. There was one other Linn family listed. Another John Linn age 24, who was also a miller, b. Tn., wife Agnes C. age 17 b. Oh., and children, James W. age 2 b. Ar., and George 5/12 b. Ar. Also living in the home was, James M. Linn age 22 b. Tn.. Since both John Linns were listed as millers, and both were born in Tennessee, I suspected they were father and son and that James M. Linn was another son.

In 1860, John W. Linn and wife Bidy were missing from the census. County boundary lines had changed and sons John and James M. were both listed in Yell County. James was now married with a family of his own. His son Robert, was living in the home of W. B. Underwood, but son Marion was missing. Since the children of John W. Linn (with the exception of Marion) were still living in the same area, I assumed that John W. and his wife were deceased and son Marion was either deceased or had moved away. John W. Linn was about the right age to be the father of my great-great-grandmother, but given the story I was relying on, her parents would have been deceased by 1850, so I considered this to be a dead end.

My next search was in Conway Co., Arkansas. There I found a John A. Linn/Lynn. At first there seemed to be some hope that he might be the connection I was searching for. He was first listed in the Arkansas census of Conway County in 1830 as John A. Linn, age 20-30. Also listed in the home was, one male 15-20, and one female 20-30. The approximate date of birth for my great-great-grandmother was 1829, which meant she should have been listed in the 1830 census, but if our date was wrong, there was still a possibility this could be her family.

With high hopes I moved on to the 1840 census of Conway Co., Arkansas. My hoped to be ancestor was still listed, but this time he was listed as John Lynn, age 30-40 years of age. The middle initial "A" was missing. Also listed in the home was, one male under 5, and one 5-10. Females listed were, one under 5, two 5-10, and one 30-40. The male who was listed in 1830 as being 15-20 years of age was missing and had apparently moved away or was deceased, as there were no other Linn/Lynn families listed. This was getting interesting. If the date of birth for my great-great-grandmother *was* wrong, she could easily be one of the females aged 5-10 years, but my hopes diminished when I moved on to the 1850 census.

I found no John Linn/Lynn listed in 1850, which was good, because, that would fit the family story. Then I found Rebecca Lynn age 42 b. Ind., with three children, Robert age 16 b. Ar., Washington 15 b. Ar, and Nancy age 12 b Ar. Rebecca's age fit the adult female in the previous census, and the three children's ages matched as well. I suspected she was the widow of John A. Linn/Lynn, but if so, two children were missing. Of course, it was possible they were also deceased. I decided I would make a trip to Morrillton, Arkansas, the county seat of Conway County. Maybe I would find a will revealing the heirs of John A. Linn/Lynn. Anything that might help me to determine if this family was in some way connected to my great-great-grandmother's family.

At the Morrillton Court House, in Probate Book "D-2", I found that on Nov. 7, 1837 John A. Lynn had purchased over one hundred acres of land at auction for payment of back taxes. The cost was, \$9.89 taxes due for each of the years 1832 through 1827, plus 25 cents search fee and 50 cents auditors fee, for a total of \$10.64. I looked for a will, but did not find one. Then in Deed Book "J" Pgs. 213-214 and 433-434, I found where Sarah Linn sold land she had inherited from her father, George Cagle. Marriage records revealed Robert Linn had married Sarah Cagle, March 30, 1856. Unable to find anything linking my great-great-grandmother to this family, I returned home disappointed.

The 1860 census showed the only Linn/Lynn remaining in Conway County was Robert Linn age 27, with wife Sarah age 21, and two children, Nancy J. age 2, and Rebecca C. age 5/12. I perceived this to be Robert the son of John A. and Rebecca Linn/Lynn, but since I had decided they were not my family, I didn't pursue what had become of the other family members. By 1870 there were no Linn/Lynn families listed in Conway County.

After a while, my cousins and I began toying with the idea that perhaps the family story wasn't altogether factual. Maybe our great-great-grandmother wasn't an orphan after all, and maybe the John W. Linn of Pope County *was* her father. We decided we should spend some

time researching his descendants, and the question arose as to what happened to his son, Marion. Was he deceased or did he move away?

The only Marion Linn/Lynn listed in the Arkansas census index was in Van Buren County. He first appears in 1870, in the home of Wm. and Roda Berry as, Marion Linn age 12 b. Ar. (too young to be the son of John W. Linn). Also listed, along with several Berry children, were two more "Linn" children, Betsy age 10 b. Ar. and Washington age 7 b. Ar. I was unable to connect these Linn children to any of the other Linn families in Van Buren County, and supposed they were orphans. If I could obtain a death record for one of them, it might reveal the names of their parents. I couldn't leave a stone unturned. If they were in any way connected to the family of my great-great-grandmother, I had to know.

In the 1880 census, Marion Linn was listed as head of the household, with wife Nancy J. and a daughter Roda. Washington and Betsy are still in the home of Wm. and Roda Berry, but appear to be using the Berry name. Also in the William Berry home was a Margaret Morris, listed as stepmother.

In 1900 Washington is listed as Washington Linn, head of household, with wife Caldonia and children William T., Marion I. or J., (I wasn't sure which) Monroe and John S. Marion was still listed with wife Nancy J. Linn. Daughter Roda has left home and there are five more children, Dalpha G. (male), Martha, Lizzie, and William T. and Huston who is listed as a widower, age 26. Listed under Huston are two children David S. age 5, and William D. age 3, who are listed as Marion's grandsons. Since Huston is listed as a widower, it is assumed these were his children. All the other Linn/Lynns in Van Buren County appeared to be the descendants of Asa Linn from Jackson Co., Tennessee

I found only one Marion Linn/Lynn listed in the Arkansas death record index, Marion E. Lynn, who died 3/11/1929 in Lonoke County. The county was wrong, but perhaps he had moved, so I decided to send for the record. This turned out to be the infant son of Frank and Margaret Lynn, which was a waste of time and money because those names meant nothing to me. I was disappointed, but not yet defeated. Also listed in the death record index was a Washington "Gre" Linn, so I sent for that record. When it arrived I found his full name was Washington Green Linn, and his father was another Washington Green Linn b. in Tennessee. The last name of his mother was clearly Morris, but her first name was faded and difficult to read. It appeared to be "Katy," perhaps a nickname for Katherine. I wondered if there was a connection with Katy Morris and the Margaret Morris that was listed as William Berry's stepmother in the 1880 census, but nothing I could think of made sense. By now I was addicted to putting families together and wanted to know where this family was in 1850, but when I didn't find a Washington Linn listed in the Arkansas or Tennessee head of household index, I decided to file them as a dead end.

At this point I needed a break from my Linn/Lynn research and decided to work on some other family lines for a while. Quite some time later, I began working on one of my lines that had migrated from Tennessee to the Franklin/Crawford County area of Arkansas. I had researched the John Lynn line in Crawford County and knew they were not my family, but a

lot of information was available on these families and I had enjoyed putting several of them together. There were still some loose ends though, and when these Lynn names began to appear before me again, I was overcome by my addiction to put families together and wanted to see if I could tie up the loose ends. In an effort to find what had become of some who were missing from the later census records, I decided to see if any of them had moved just across the line into Oklahoma. I didn't find any of the Crawford County Lynns, but I did find a funeral record from Agents Funeral Home in Sallisaw, Ok. for James Marion Linn, b. Dec. 1, 1885 in Union, Arkansas. Then my eyes focused on the names of his parents. Name of father: Washington Green Linn, name of mother, Caldonia Hayes; no doubt the father was Washington Linn of Van Buren Co., Arkansas. Suddenly I no longer cared about the Crawford County Lynns. My desire to put *this family* together had been rekindled.

I checked my census notes to be sure I wasn't mistaken and sure enough, in the 1900 census of Van Buren Co., Union Twp., in the home of Washington and Caldonia Linn, was Marion with the middle initial "I" or "J", b. Dec. 1885. His name was reversed, but it was him. The middle initial I hadn't been sure of before had to be a "J" for James. Again I looked in the census index for the senior Washington Green Linn/Lynn, and again, I didn't find him listed. My eyes scanned the list of Lynn names. There was a G. W. Lynn listed in Searcy County. I had seen him before, but hadn't given him a second thought. I stared at the "G. W." and thought "Could it be that the initials were reversed??" I had to know—my hunch proved to be right.

In the 1860 census of Searcy Co., Bearcreek Twp., Pg. 32, h/h #59, was G. W. Lynn age 23, with wife Rody age 21, children Marion age 2, Polly 4/12 and Elizabeth 4/12. (Betsy was a nickname for Elizabeth) Polly must have been a twin sister who died before 1870. Washington hadn't been born yet. Except one thing had me puzzled. The death record for Washington said that his mother's name was "Katy". Remembering that the name was rather faded, I retrieved the record from my dead end file for closer examination. Now that I had a better idea of what I was looking for, I was certain that what I had previously thought was "Katy", was in fact, "Rody." Her name was Rhoda! This was so amazing. By 1870, the senior Washington was apparently deceased, as he was missing from the census records. Now I knew that this Rody, and Roda, wife of William Berry in Van Buren County, (where Marion, Betsy and Washington, appeared to be orphans) were one in the same, and Margaret Morris who was in the home in 1880, was mistakenly listed as a stepmother, when she was in fact, William Berry's mother-in-law.

As remarkable as it was, I was about to make an even more surprising discovery. Listed in the 1860 census of Searcy Co., Cove Twp., Pg 929, h/h #637, was a Wm. Trease age 25, with wife Peggy age 21, children, Amos age 2 and Sonora age 4/12. Also listed in the home was Rebecca Lynn age 53, b. Ind. Her age was a perfect match for Rebecca, the widow of John A. Lynn, and the Washington who was married to Roda, was no doubt their son—I had just come full circle. But, what was the "Trease" connection? Was Peggy a daughter? The age of Peggy Trease in this census was a perfect match for John and Rebecca's daughter, Nancy, who was listed as age 12 in the Conway County census of 1850. Peggy was later listed as

Margaret, but there was no Peggy or Margaret listed in the 1850 census. (Peggy is a nickname for Margaret.)

In the 1870 census of Searcy Co., Arkansas, Bearcreek Twp, Pg. 7, h/h #66, listed as head of the household was Margaret Trease age 29 b. Tn. Husband William and daughter Sonora were missing. Their son Amos is now age 10, and another child, Rebecca J. age 8, had been added. The older Rebecca is still living in the home listed as Rebecca Linner age 62 b. Ind. Unfortunately, how household members were related to the head of household was not recorded until 1880, and by then the older Rebecca was apparently deceased, as she was no longer listed. Margaret's father's birthplace in some census is Va. and in others Tennessee. Her mother's birthplace is Ind., which further indicated that Rebecca was her mother. Still, I needed to prove to myself, and for the record, that Margaret was in deed the daughter of John A. and Rebecca Linn/Lynn.

In the Arkansas death record index, I found a Margaret Treece, who died 10/26/1922 in Searcy County. It was a long shot, but I had to know if this was the same Margaret Trease, and if the names of her parents were on her death record, so I called to order the record. As I waited for my phone connection, I couldn't believe I was again spending time and money to obtain information on a family I knew was not my own—this is true genealogy addiction! When the record arrived, I was not disappointed. Her full name was, Margaret O. Treece, in parenthesis, under the "O" was, "Aunt Peg." Date of birth, Mar. 12, 1842, place of birth, Conway Co., Arkansas. The informant was her son, Amos K. Treece. To my surprise, it was the mother's name that was blank. The father's name was very plain: John Lynn. I didn't need any further proof that Rebecca was her mother. She had lived with her all those years and if John Lynn was her father and she was born in Conway Co., Arkansas, I had no doubt that Rebecca was her mother, and this was in deed the family of John A. Linn/Lynn.

I listed both Margaret and Nancy in my John A. Linn/Lynn file as daughters. But, I believe since the name Margaret didn't appear in the 1850 census, and there was no further trace of Nancy, it is possible these two are one in the same. Of course, it is also possible that the census taker just failed to list Margaret.

As for my great-great-grandmother, Louisa Jane Linn/Lynn, I am very happy to say that my cousins and I have finally proven that though Bidy Linn was her stepmother, John W. Linn of Pope Co., Arkansas was indeed her father, and Aunt Sarah was not an aunt, but was in fact, her sister. So the family story, as we suspected, was not altogether factual. The ancestry of John W. Linn is just as much a mystery as Louisa's was. *But*, because we have learned that brick walls that have stood for years can come tumbling down when you least expect it, we will continue to search until this wall too has been removed and another connection is made.

## Lynn/Linns in the Illinois Regiment, 1778-1784 George Rogers Clark Papers

Contributed by Carol Vass  
E-mail: SVass@aol.com

An index has been prepared for the extensive collection of documents/papers of Gen. George Rogers Clark. You can find the index at <http://www.execpc.com/~sril/clark>

The George Rogers Clark Papers are deposited at the Virginia State Library and Archives, Richmond, Virginia. This index was compiled by Richard Eugene Willson, Indexing and Donald E. Gradeless, Ph.D., Editor for the Society of Colonial Wars in the State of Illinois and the Sons of Colonial Wars in the State of Illinois and the Sons of the Revolution in the State of Illinois, Chicago, Illinois, 1998.

The microfilm is available at Newberry Library in Chicago, as well as other libraries with large genealogical and historical collections. The films are no doubt available through inter-library loan as well.

The following LYNN/LINN names are in the index—plus hundreds of other surnames and events of interest. The editor notes some unfamiliar names in this list, such as David, Tad, Simon, Richard, Homer and Marguerite. Andrew, Benjamin, Nathan and William of course are familiar as the sons of Andrew (BIA) Linn. (For those unfamiliar with this "tag" of (BIA), in order to differentiate between the Andrew Linn, Sr. of Fayette Co. PA and other Andrews, the editor gave him this nickname to signify "Babe in Arms" as that is how the Beattys described him in their writings for Genealogies of Kentucky Families.)
