NO. 1

Welcome all you WOODSON WATCHERS!:

Just what is a Watcher, you ask??? Webster defines a watcher as "one who is awake, attentive and on the look out; an observer who is vigilant, guards and "has in Keeping". Also, "one who sits by the dead" (a bit grim). Well, it is my hope that we can do more than just SIT, and be all of the above plus "one who SHARES" (my definition) the most important word of all.

This first issue is the culmination of many years of research and correspondence with many of you. But things began to get out of hand, just too much to do and share on a one to one basis.

You may think that this first issue is a bit heavy on Virginia records. You are right, but I feel it necessary to lay a firm research base for those new researchers who may not be familiar with the earlier generations. To expand this base, I will need input from those of you who have access to records in your area. I cannot do this alone.

The basis of our research is, of course, the HISTORICAL GENEALOGY of the WOODSONS & CONNECTIONS. I do not intend this family news to be just a rehash. The only thing I am taking directly from W & C is the numbering system. The family group sheets I submit have been checked and rechecked in many other sources, and I have made additions and corrections. This is not to cast aspersions on Henry M. Woodson's work, a most remarkable volume, especially for it's time. As one researcher writes, "It is impossible to compile a book of the scope of The Woodsons and their Connections which is inerrant. I do not want to discredit Mr. Woodson in any way; his contribution is extremely valuable to anyone interested in the Woodson family. Those of us who use his book OWE IT TO HIM (my emphasis, ml) to call attention to errors, which were never caused by carelessness, and to supply documented correction". Very well said!

I certainly will appreciate additions and corrections.

HAPPY HUNTING and Hey! KEEP WATCHING out there.

Marilyn

P.s.: Please also be aware of variations in spelling of the name. Have found Woodfin quite a few times recently. And if you run across any Woodsons who you know are not connected, let me know. Thank you.

NUMBERING SYSTEM

The only thing I am taking directly from "W & C" is the numbering system. It seems that to change it 67 years after the original publication (1915), would be unwise. As the numbers run consecutively and many new identifications have been made, I am adding letters to the known ancestor.

Example: There are no descendents listed in "W & C" for 119 Charles Woodson, so I have added letters where we have been able to add and identify his children. Thus, his daughter Judith Woodson who married Wm. R. Gilliam becomes 119C. Her children would be 119C + 1, 2, 3, etc. You each have been given a research/subscription number preceded by a W. Those of you who have been able to identify their Woodson connection, have been given the "W & C" number farthest down the line with a Woodson name. This should help identify those researchers most closely connected to you.

Example: 119C/W11 is Camp Gilliam.

From time to time I will give credit for a contribution only identified by a number. For various reasons these people wish to remain anonymous at this time. If you wish to contact them for any reason, write to me and I will forward to them.

I hope I make myself "PERFECTLY CLEAR".....Ed.(otherwise known as 118/W52)

"The WOODSON WATCHER"

Dedicated to those who have gone before, and in particular to Dr. John and Sarah, who led the way.

May we prove worthy of them all, patriots & pioneers, famous & infamous, and just plain people, the dauntless foundation of this great country and our family.

OUR ANCESTORS

We, who descend from the Woodsons are lucky indeed, for we spring from a line that were proud of their heritage and therefore kept records of their families. Dates and places were not always noted and accuracy wasn't of prime importance (at the time), but the nucleus has been recorded and more and more primary records are being found right along.

When one finds a Woodson on their family tree there is little, or no, doubt that the immigrant ancestor is Dr. John Woodson. It has never been proven that he actually was a Dr., but various stories and a strong family tradition say he was. Many published references say: Dr. John Woodson, b.1586, Devonshire, Eng., matriculated at Oxford, 1 March, 1604, age 18, son of Mr. Woodson, gentleman of Bristol. The date and place of his marriage to Sarah Winston has not yet been uncovered, but, on the 29 Jan. 1619, the ship "George" sailed from England and landed in Jamestown, Virginia the following April. Besides the new Governor, Sir George Yeardley, the passenger list recorded (Dr.?) John Woodson, age 33, of Dorsetshire, and his wife Sarah Winston. It has been noted that Sir George Yeardley had recruited new settlers for Virginia, and also that he had enlisted the services of Dr. John Woodson to administer to the needs of his soldiers. Since so many of the early records have been destroyed we are hard put to positively prove much of the tradition. However, bits and pieces are constantly surfacing.

In the interest of space we can only highlight what we know of the first Woodson couple in the new world. Records show them registered in Feb. 1623, along with six negroes, at Fleur de Hundred, near Jamestown, in what is now Prince George County. Their slaves were no doubt part of the very first eleven blacks brought by the Dutch, to Virginia, in 1619. Most genealogists agree that this is the place where their two sons were born, John about 1632 and Robert about 1634. Again there is no positive proof linking the sons with the parents, but circumstantial evidence and family tradition are strong. One can envision these years as being hard and ever fearful, but perhaps content. Sarah may have lost a child or two, tended a garden and to the household chores, while Dr. John probably took care of the illnesses of the settlement, supervised and helped the negroes with crops, etc. (These negroes were later freed). No doubt they both took a firm hand in raising their sons.

Then came the Indian attack of the 18th of April 1644. As the story goes, Dr. John Woodson was killed within sight of his home. Sarah and a shoemaker, named Ligon, defended the house and killed nine Indians. Sarah received credit for scalding one of them with boiling water and braining another with a roasting spit! At the first sign of trouble she had hidden son John under a tub and son Robert was put into the potato bin, for years to come their descendants were known as "Tub Woodsons" and/or "Potato Hole Woodsons". I have found many people who descend from both brothers. The Woodson gun used by Ligon on this frightful day is now in possession of the Virginia Historical Society.

After this date Sarah seemed to drop from sight. Recently a record was found which gives her possible death date as Jan. 1660. If research proves this to be true, it will be the subject of a future article.

Congratulations and sincere thanks to Marilyn Longobardi and Claudette Maerz. They are taking on a project that has long been overdue! Happy Hunting!.....

Editors Note:

Thank you, Alice, for the fine words of encouragement! But more important, thank you for the fine profile of Dr. John and Sarah. This certainly will help us get off to a good start. This is the type of article and cooperation that will make WW a success. Please, if any of you have enough material, write a note, profile or human interest item on someone in your line. Just a list of vital statistics can be DULL! Let's put some life into our ancestors.

PROFILE

#1136 Daniel Woodson

From: History of Kansas, by A.T. Andreas, 1883.

Daniel Woodson was editor and half owner of the Lynchburg Daily Republican (a Democratic journal). Seven years later he was appointed by President Franklin Pierce as Secretary of Kansas Territory. At that time Kansas Territory included all lands west of the Missouri, save Texas. The appointment carried a salary of \$2,000 per annum, a large salary in those days. Six times he filled Governor Reeder's chair during those troublous times. Governor Reeder was from Pennsylvania. Woodson helped found the town of Lecompton; for six months the seat of government rotated from Ft. Levanworth to Shawnee Mission, to Pawnee, to Shawnee Mission, and finally to Douglas, soon Thereafter renamed Lecompton, after Cheif Justice Samuel B. Lecompton of Maryland, who had brought the George Armstrong "float". Government was established there in August 1855.

Daniel Woodson owned the northwest quarter of Sec. 10, immediately southwest of the town plat, but moved to town in 1857. After two terms, Daniel Woodson retired as Secretary and was appointed Receiver of Public Moneys for the Delaware District at Kickapoo, Kansas. He farmed at Levanworth, Salt Creek District, for twelve years; in 1870 to Montgomery County, Kansas, helping to establish the first newspaper at Parker, where he was also Deputy Clerk of the County Board and Court. The proposed city was abandoned so he went to Coffeville, Kansas.

Note:

It is stated in his obituary that Daniel Woodson "came to Edinburg, Kansas, Wednesday, October 18, 1854". Edinburg was formerly Shawnee Mission. (Ed.) See Family Group Sheet 1136/

PROFILE

Zachariah & Edwin W. Woodson

Zachariah Woodson came to the area that is now Summers Co., W.Va. in 1832 with his older brother, Edwin W. Woodson, his widowed mother and family. They settled near Forest Hill. Edwin traveled in Monroe, Summers, Raleigh, Giles and Mercer Cos. as a pioneer Baptist minister, organizing churches. Edwin married Adaline Landcraft, and died in 1851. Zachariah later settled on the Greenbrier river where Talcott now stands.

I have done some research in these magazines and it seems that some of the names mentioned are those of slaves or freed blacks that adopted the Woodson name.

HEADSTONE INSCRIPTIONS, TALCOTT CEMETERY, SUMMERS CO., W.VA.

Submitted by: W32 LecAnn Blankenship

- ZACHARIAH WOODSON: "He followed virtue as his guide, lived as a Christian - as a Christian died."
- SARAH A. WOODSON: "She believed & sleeps with Jesus"
- THOMAS WOODSON: "He's gone to his rest after a useful life"
- NADINE DORSEY WOODSON: "Think of her still as the same & say, She is not dead, just away"
- JOSEPH WOODSON: "Had he asked us, well we know we would say, O spare the blow yes, with streaming tears we'll pray Lord, we love him, let him stay"

SEE GROUP SHEET OF ZACHARIAH WOODSON ON PAGE 32 FOR DATES.

"ANCESTORS"

Anon.

"If you could see your ancestors
All standing in a row,
Would you be proud of them?
Or don't you really know?"

"Strange discoveries are sometimes made
In climbing the family tree.
Occasionally one is found in line
Who shocks his progeny."

"If you could see your ancestors
All standing in a row,
Perhaps there might be one or two,
You wouldn't care to know."

"Now turn the question right about,
And take another view,
When you shall meet your ancestors --
Will they be proud of you?"

Virginia: Thank you so very much for all the great info that you have sent. As soon as I have had time to digest it, I will print it in the next issue of the WW. In the mean time, Those of you who have Cocke connections, I highly reccomend the following:

VOLUME II OF COCKES AND COUSINS
DESCENDANTS OF THOMAS COCKE (c. 1639-1697)
by Virginia Webb Cocke

\$15.50 Postpaid

This compilation of fourteen generations of descendants of the adventurer Richard Cocke (c. 1600-1665) through his son, Thomas, was made from extensive studies of records in libraries, county clerks' offices, and family Bibles, and from correspondence with many descendants who have compiled info.

Volume II of Cockes and Cousins contains the information given about Thomas Cocke and his descendants in Volume I which has withstood critical analysis and additional research. Sources of errors which have persisted for generations have been searched for and some corrections have been made. Much previously unpublished material has been added.

This volume, lithoprinted and case bound, contains approximately 800 pages. The 74-page index facilitates quick reference. The endsheets are a map of the area where the early generations of the Cocke family and their neighbors lived, with dates of land patents. There are three photographs: one of the graveyard at Brems and two of Malvern Hill.

Send orders to:

Cockes and Cousins
